

Flex

EASY CHAIR

Design Tapani Laukkanen

The Flex easy chair combines classic and modern design. It is well suited as a lounge chair for casual meetings or just for relaxing in a reading corner.

The Flex easy chair has a swivel seat and a swing mechanism. Swing can be locked off but the returning rotation mechanism cannot be locked. The rigidity of the rocking mechanism can be adjusted with the help of the users weight and the adjustment knobs are placed under the front of the seat.

Materials and finishing

Wood Natural color birch, stained oak color, stained black 1, stained white 1, stained nut color 4, painted black 1, painted white 4.
