## CONTROL ROOM CHAIR / WORK CHAIR

KAB Seating Director D1Ci is one of the most popular control room chairs. It is a very robust, steel-framed chair, which is perfect for control rooms and other active working environments. Excellent lateral support and air-filled lumbar support allow for working even with back pain. Tip-up adjustable armrest moves with the backrest. The chair has rocking mechanism and is suitable for S-XL size, 50-200 kg users. Both the seat and backrest have excellent lateral support. Backrest angle adjustment is 16°. Fabric or leather upholstery. For accessories see datasheet.

### Materials and finishing

Frame	Robust steel frame
Cross base	Aluminium pedestal
Upholstery	Fabric or leather
Castors	Soft or hard surface castors

### Dimensions

Width	700mm
Depth	700mm
Backrest height	660mm + headrest
Seating height	460-560mm (with standard gas spring)

# KAB Seating<sub>Executive</sub>

## CONTROL ROOM CHAIR / WORK CHAIR

KAB Seating Executive E1Ci is a soft and comfortable control room chair for M-XXXL size users for demanding 24 hour use. This very robust, steel-framed chair is an excellent choice for control rooms or other active working environments. The Executive is suitable for the sturdier-built managers and supervisors because of its wider and softer seat and back. The robust robot-welded steel frame provides a durable platform for this comfortable office chair and the chairs come with a new mechanism, which makes it suitable for 50 – 200 kg users. Backrest angle adjustment is 16°. Tip-up adjustable armrest moves with the backrest. Lumbar support. Fabric or leather upholstery. For accessories see datasheet.
