

Sigur

COFFEE TABLE

Design Saara Renvall

The impressive design of the Sigur chair reflects the classical shapes of the 1950's and- 60's. Sigur product family consists of upholstered chairs with 2-seater and 3-seater sofas with or without armrests, bench for one or two persons and Sigur coffee table.

Sigur tables complement the Sigur furniture family. By combining the table of two heights and different sizes of table tops you can design creative, unique decors.
