

Fremo

Universal table

Design ISKU Team

ISKU Fremo is a clean-lined, metal-framed table that adapts to a wide range of uses, from classrooms to project rooms, and from event spaces to workshops. Its durable construction and minimalist design make it a timeless choice that blends effortlessly into any environment. Fremo is part of a functional space where work, learning, and ideation flow smoothly. For easy mobility, it is available with either four or two castors.
